Read Online The Analytic Hierarchy Process Ahp And

The Analytic Hierarchy Process (AHP) is a structured technique for organizing and analyzing complex decisions. It is based on the idea of breaking down a decision into a hierarchy of sub-problems, each of which can be analyzed more easily. The process involves comparing elements of the hierarchy pairwise, and then aggregating these comparisons to determine the overall priorities of the elements. AHP is widely used in various fields, including business, engineering, and social sciences.
